WEEK RECAP

Week 2 in six lines

Quick review of what we covered

1. **Vitamin D**
   Few foods have it. Sunlight depends on many factors.
2. **Calcium**
   Check the label: tofu counts if made with calcium salts.
3. **Fiber**
   28 g Daily Value. 20% DV or more is high.
4. **Shirazi salad**
   Dress it just before serving.
5. **Omega-3**
   Plant ALA and fish EPA and DHA are not interchangeable.
6. **Protein powders**
   Food first. Check the testing and keep it occasional.

> **Compare per serving, read the %DV and keep food first.**
